## EDUCATION

2025-27

SRTUMN UNIVERSITY

- Master of Computer Application (pursing)

2022-25

SRTUMN UNIVERSITY

- Bachelor of Computer Application
- CGPA: 8.53 / 10

## TECHNICAL SKILLS

- Core java
- Spring Boot
- Hibernate
- JPA
- JDBC
- Servlets
- Microservices

## SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Problem-Solving
- Emotional Intelligence
- Quick Learner

## LANGUAGES

- English (Fluent)
- Marathi(Fluent)
- Hindi(Fluent)

## CERTIFICATIONS

- Certified Java Full Stack- FirstBit Solutions(Pune)
- NPTEL Certified Java Programmer – IIT Madras (SWAYAM)

## PROFILE

Certified Java Full Stack Developer skilled in **Core Java, Spring Framework, Spring Boot, Hibernate, JPA, JDBC, JSP, Servlets, and Microservices**. Strong expertise in **OOP principles, MVC architecture, RESTful API development, and API testing using Postman**, with solid database knowledge in **MySQL**. Experienced in frontend development using **HTML, CSS, JavaScript, and Bootstrap** to build scalable, secure, and high-performance web applications.

## PROJECTS WORK

### Online Shopping Website

Online Shopping Website (Java Full Stack Project)

- Built a secure and scalable e-commerce platform using Spring Boot, Hibernate, REST APIs, and MySQL.
- Implemented product management, cart, order processing, and authentication with OOP and MVC principles.
- Created a responsive UI using HTML, CSS, JavaScript, Bootstrap, and tested APIs with Postman.

### Blog Management System

Blog Management System (PHP, MySQL, HTML, CSS, JavaScript)

- Built a responsive blog platform with admin and user dashboards.
- Implemented authentication, CRUD operations, and MySQL integration.
- Designed a user-friendly UI with Bootstrap and animations.

### Organic Fruits & Vegetables E-Commerce Website

Organic Fruits & Vegetables E-Commerce

- Developed a user-friendly online platform for selling fresh, organic fruits and vegetables.
- Implemented product catalog, secure payments, and order management using PrestaShop.
- Designed a responsive UI for seamless shopping across devices, improving customer experience.

### Player Management System

Player Management System (C, File Handling)

- Designed and developed a console-based application in C for managing player records.
- Implemented file handling to store, update, and retrieve player details efficiently.
- Provided features for adding, searching, and deleting records, ensuring smooth data management.
